

1.4 Causing damage to vehicles

A number of vehicles parked on the street were damaged by a youth running a knife along the paintwork on their sides. A witness said:

"I was some way behind a man wearing a hoody, and as I walked up the street I noticed a badly scratched car. Then I saw the next car was damaged as well, and the third one. I looked and saw the man in front had a knife. I called out "Oi!" and he scarpered round the corner. Then I called the police. I can't really describe the man, except that he had quite long hair and he seemed to have a bit of a limp. He was quite tall, 1.8 metres or more."
